## A Decade of Artivism!

Our [2022 Impact Report: A Look Back at our First Ten Years](#) is here!

Ten years ago, we started as a small organization with only \$300 in the bank. Today, we're a global organization with an over \$2M budget! All thanks to you, our committed community!

This report covers our history and accomplishments, from global tours to program expansion. We also spotlight the voices of our incredible company members, alums, and staff who have supported and ensured our growth over the years.

*What can you expect for the future? Stay tuned as we expand our programs internationally to impact even more girls, young women, and gender non-conforming youth.*
